HAFIZ KHALID SAEED

SOFTWARE ENGINEER | REACT NATIVE DEVELOPER | CROSS-PLATFORM APPLICATION ENGINEER

Address: Lahore, Pakistan **Contact:**0300 4471275

LinkedIn: linkedin.com/in/hafiz-khalid-saeed-4239941a4

PROFESSIONAL SUMMARY

Results-driven Associate Software Engineer with 3+ years of practical experience in React Native mobile app development,
cross-platform development, API integration, and SaaS product engineering. Experienced in building and maintaining React Native mobile applications, React/TypeScript web applications, and Tauri + Rust desktop applications for Windows, macOS, and Linux.
Strong hands-on experience with payment integrations, Zoom integration, AI chatbots and voice assistants, Pusher real-time communication, authentication, state management, dynamic forms, notifications, reporting, remote activity tracking, screenshots, time entries, fraud detection, idle detection, and OS-level desktop events.

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Mar 2025 – Present | Lahore, Pakistan

AppliconSoft — Full-Time, Permanent Employee

- Develop and maintain applications across React Native mobile, React/TypeScript web, and Tauri + Rust desktop, supporting Windows, macOS, and Linux.
- Work on the ROI Mobile App, a SaaS mobile application with task management, milestones, meetups, channels, video-watching services, dynamic form creation, and advanced social-media and management-tool integrations.
- Implement payment integrations, Zoom integration, and AI integrations including chatbot and voice-assistant functionality inside mobile applications.
- Work across frontend and integration layers using REST APIs, authentication, state management, real-time data, notifications, third-party services, and reusable UI components.
- Build and enhance the latest TrackPilot AI product: Tauri desktop application, React/TypeScript web dashboard, and business website.
- Implement remote workforce tracking including application/website usage, keyboard and mouse activity, screenshots, time entries, productivity reports, fraud detection, and idle detection.
- Implement and troubleshoot desktop-specific features including power-management events, permissions, notifications, and platform-specific behavior.
- Implement Pusher live chat, real-time updates, in-app notifications, and synchronized application data.
- Perform debugging, testing, UI enhancement, performance optimization, integration work, and production feature delivery.

React Native Developer

Aug 2024 – Jun 2025 | Lahore, Pakistan

7kingscode

- Developed and maintained React Native applications with role-based access control (RBAC) for admin, manager, employee, and vendor workflows.
- Implemented product listings, categories, pricing, stock levels, bulk CSV updates, low-stock alerts, automatic reordering, vendor onboarding, performance tracking, and multi-warehouse inventory.
- Integrated FedEx API for real-time shipping rates, automatic label generation, shipment tracking, and configurable shipping rules.
- Integrated Authorize.Net for secure payment processing, payment status tracking, multiple payment options, invoices, and receipts.
- Implemented subscription tiers, pricing and benefits, automated renewals, notifications, discounts, and plan-based functionality.
- Integrated third-party APIs using secure token-based authentication and implemented CRUD operations for products, vendors, orders, and warehouses.
- Configured notifications for low stock, orders, shipping, payments, renewals, reorders, and restocking through email, SMS, and in-app alerts.
- Contributed to release preparation, code signing, store listing, CI/CD, guideline compliance, testing, and application performance monitoring.

PERSONAL PROJECT EXPERIENCE

React Native Developer — eCommerce Mobile Application

Nov 2023 – May 2024

Personal Project

- Developed an eCommerce application using React Native with Redux/Redux Toolkit and Axios for REST API integration.
- Implemented authentication, Google Maps store-location views, product search, favorites/unfavorites, cart management, quantity controls, and total balance calculations.
- Stored user profile data locally using Redux Toolkit and integrated payment gateway UI.

TECHNICAL SKILLS :

Mobile Development	React Native, JavaScript, TypeScript, React Native CLI, Expo, Cross-Platform Mobile Development
Web Development	React, TypeScript, Responsive UI, Web Dashboards, Business Websites, REST API Integration
Desktop Development	Tauri, Rust, Windows, macOS, Linux, Multi-OS Desktop Builds, Desktop Notifications, OS-Level Events
State & Local Data	Redux Toolkit, RTK Query, Redux Persist, AsyncStorage, State Management, Local Data Handling
API & Integration	REST APIs, Axios, Fetch, CRUD, Token-Based Authentication, Third-Party API Integration
Payments & Services	Authorize.Net, Payment Gateway Integration, FedEx API, Zoom Integration, Google Maps
AI & Real-Time	AI Chatbots, Voice Assistants, Pusher Live Chat, Real-Time Data, In-App Notifications
Product Engineering	SaaS Applications, Task Management, Milestones, Dynamic Forms, Reporting, Authentication
Desktop Tracking	Keyboard/Mouse Activity, Screenshots, Time Entries, App/Web Usage, Idle Detection, Fraud Detection, Power Management
Engineering Tools	Git, CI/CD, Debugging, Testing, API Documentation, Performance Optimization

KEY PROJECTS

TrackPilot AI — Complete workforce/productivity tracking ecosystem consisting of a Tauri + Rust desktop app, React/TypeScript web dashboard, and business website. Supports remote user working tracking, application/website usage, keyboard and mouse activity, screenshots, time entries, reports, fraud detection, idle detection, power-management events, in-app notifications, and Pusher live chat.

ROI Mobile App — SaaS React Native mobile application with task management, milestones, meetups, channels, video-watching services, dynamic form creation, and advanced social-media/management tool integrations.

Enterprise Commerce Application — React Native business application covering RBAC, product and inventory management, vendor management, multiple warehouses, FedEx shipping, Authorize.Net payments, subscriptions, invoices, notifications, and secure third-party API integrations.

EDUCATION :

BS Computer Science
Virtual University of Pakistan
Oct 2017 - Dec 2022

ACHIEVEMENTS :

- Silver Medal — Branis IT Competition | Jun 2014 - Sep 2014

CERTIFICATIONS :

- BIT — Jun 2014 - Sep 2014
- MS Office Foundation CIT — May 2023 - Sep 2023
- Certificate in Information Technology (CIT) — NAVTTC in collaboration with UET Lahore
- Certificate in Computer Hardware, Repair & Networking Professional (CHR&NP;) — PVTC | Jan 2021 - Mar 2022
- Social Media Marketing — E-Rozgar in collaboration with PITB | Apr 2024 - Jun 2024

PROFESSIONAL & SOFT SKILLS :

Problem Solving • Collaboration • Teamwork • Time Management • Leadership • Integrity • Customer Service • Risk Management • UI/UX Awareness • Debugging • Testing • Documentation

LANGUAGES :

English — Full Professional Proficiency
Urdu — Native or Bilingual Proficiency

PROFESSIONAL PROFILE :

Primary Specialization: React Native Mobile Application Development
Additional Focus: React/TypeScript Web Development, Tauri/Rust Desktop Development, API & Payment Integration, AI Integration, Real-Time Applications, SaaS Product Development, Cross-Platform Engineering
